## IN THE CLAIMS:

currently (Amended) A device for skiing, comprising a ski having a first side, and a bottom 1. 1 surface, and a bent plate, said bottom surface having a first edge on said first side, 2 said ski further bent plate comprising a first outrigger edge on said first side, 3 wherein said first outrigger edge extends from said ski spaced from said first side, 4 wherein when said bottom surface is facing down, said first outrigger edge is 5 higher than said bottom surface, wherein said outrigger edge has a portion that is 6 7 serrated. (Original) A device, as recited in claim 1, wherein said first outrigger edge 2. 1 extends from said ski parallel to said first edge. 2 3. 1 Cancel 1 4. Cancel currently (Amended) A device, as recited in claim 4 1, wherein said plate is removably 1 5. 2 attached to said ski. (Original) A device, as recited in claim 5, wherein said ski has a top surface, 1 6. 2 wherein said plate is connected to said top surface. 1 7. (Original) A device, as recited in claim 6, wherein said plate is removably 2 attached to said top surface with a fastener. currently 1 8. (Amended) A device, as recited in claim 4 1, wherein said plate has a single bend 2 on each side.

(Withdrawn) A device, as recited in claim 4 1, wherein said plate has two bends 1 9. on each side. 2 (Withdrawn) A device, as recited in claim 1, wherein said first outrigger edge is 1 10. integrated with said ski. 2 (Withdrawn) A device, as recited in claim 11, wherein said ski has a top surface, 1 11. wherein said first outrigger edge is integrated with said top surface. 2 (Withdrawn) A device, as recited in claim 11, wherein said ski has a top surface, 12. 1 wherein said outrigger edge is integrated with an inner portion of said ski. 2 (Withdrawn) A device, as recited in claim 1, wherein said outrigger edge extends 13. 1 substantially along said entire first edge. 2 (Original) A device, as recited in claim 1, wherein said outrigger edge extends 14. 1 2 along only a portion of said first edge. (Original) A device, as recited in claim 1, wherein said outrigger edge extends 15. 1 2 along several portions of said first edge. 1 16. (Withdrawn) A device, as recited in claim 1, wherein a plurality of outrigger 2 edges extend along a single portion of said first edge. 17. Cancel

1 2	18.	(Withdrawn) A device, as recited in claim 17 1, wherein said portion that is serrated is removable from said outrigger edge.
1 2	19.	(Withdrawn) A device, as recited in claim 1, wherein said outrigger edge has a portion that is removable from other portions of said outrigger edge.
1 2 3 4 5	20.	(Original) A device, as recited in claim 1, wherein said ski further includes a second side opposite said first side, wherein said bottom surface further includes a second edge on said second side, and wherein said ski further includes a second outrigger edge on second side, wherein said second outrigger edge extends from said ski spaced from said second side.
1 2 3	<b>21.</b>	(Original) A device, as recited in claim 20, wherein said first outrigger edge extends from said ski parallel to said first edge and said second outrigger edge extends from said ski parallel to said second edge.
1 2 3	22.	(Original) A device, as recited in claim 20, wherein when said bottom surface is facing down, said first outrigger edge and said second outrigger edge are both higher than said bottom surface.
1 2 3	23.	(Original) A device, as recited in claim 20, further comprising a bent plate, wherein said bent plate includes said first outrigger edge and said second outrigger edge.
2	24.	(Original) A device, as recited in claim 20, wherein said first outrigger edge is symmetric with said second outrigger edge.

(Original) A device, as recited in claim 20, wherein said first outrigger edge is

parallel with said second outrigger edge.

25.

	1	26.	(Withdrawn) A device, as recited in claim 20, wherein said first outrigger edge is		
	2		asymmetric or	non-parallel with said second outrigger edge.	
	1	27.	Currently (Amended) A	method of skiing on snow or ice, comprising the steps of	
	2	27.	(I IIII OI I O O O O O O O O O O O O O O		
			<b>a</b> )	providing a ski having a bottom surface, a binding, and a bent	
	3		<b>a</b> )	•	
	4			plate, wherein said bent plate includes an outrigger edge, wherein	
	5			when said bottom surface is facing down said outrigger edge is	
	6			higher than said bottom surface, wherein said bent plate is	
	7			connected to said ski in a location adjacent said binding.	
	8				
	9		<b>b</b> )	skiing on said ski; and	
1	.0				
1	1		c)	tilting said ski to engage said outrigger edge with the snow or ice.	
	_		ourrankly		
	1	28.		method of fabricating a ski for skiing on hard snow or ice,	
	2		comprising the	e steps of	
	3				
	4		a)	providing a ski having a bottom surface;	
	5				
	6		<b>b</b> )	providing a bent plate having an outrigger edge edges, wherein said	
	7			outrigger edge has a portion that is serrated; and	
	8				
	9		c)	mounting said plate to said ski wherein when said bottom surface	
1	.0			is facing down said outrigger edge is higher than said bottom	
1	.1			surface.	

1	29.	(New) A device for skiing, comprising a ski having a first side, a bottom surface,
2		a binding, and a bent plate, said bottom surface having a first edge on said first
3		side, said bent plate comprising a first outrigger edge on said first side, wherein
4		said first outrigger edge extends from said ski spaced from said first side, wherein
5		when said bottom surface is facing down, said first outrigger edge is higher than
6		said bottom surface, wherein said bent plate is connected to said ski in a location
7		adjacent said binding.

- (New) A device, as recited in claim 29, wherein said binding has heel and toe 30. 1 pieces, wherein said bent plate is connected in a location between said heel and 2 3 toe pieces.
- (New) A device, as recited in claim 30, further comprising additional bent plates 31. 1 connected on both sides of said binding. 2
- (New) A device, as recited in claim 29, wherein said binding has heel and toe 1 32. pieces, wherein said bent plate is connected in a location on both sides of said 2 3 binding.
